

CERTIFICATION RETRIEVAL

Whether Automated ID is used from the web or with AIC (mobile device), all available certification

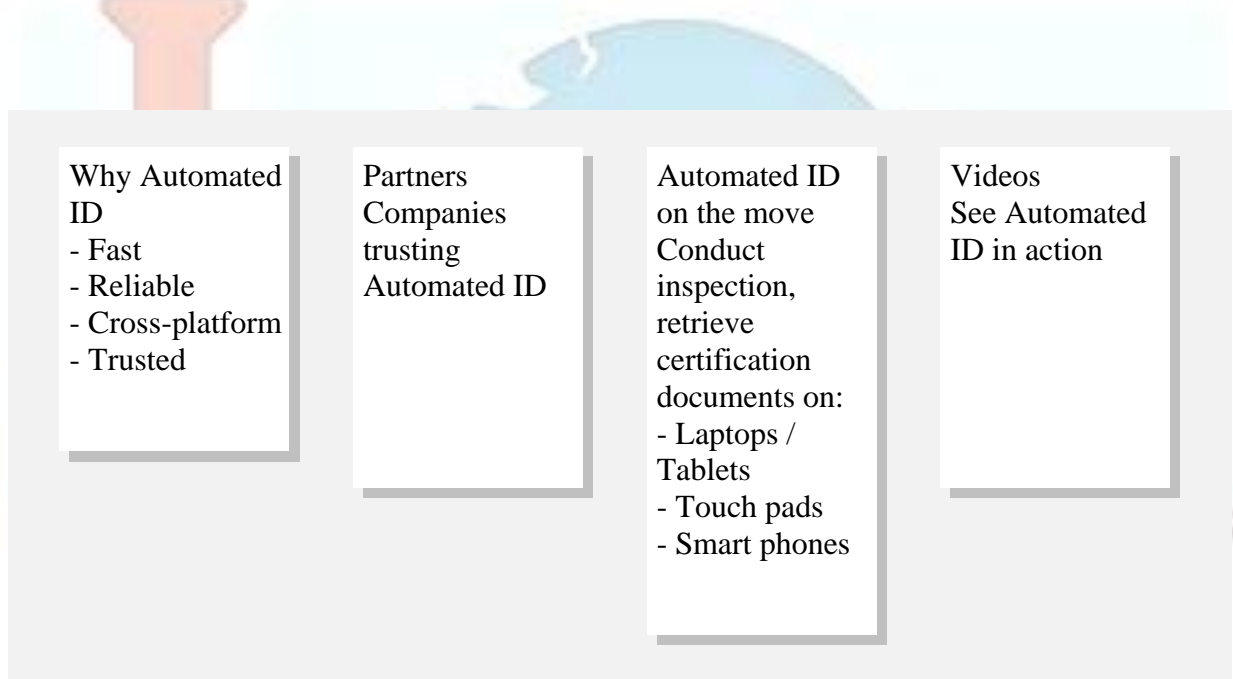

documents are available to the user in PDF format.

By experience we know that certifications have to be presented before the cranes are put in action.

Prior to Automated ID, oilrigs were required to completely stop production while waiting for the proper documentation to be presented to the inspector. This caused cranes, rigging crew and rental equipment to be stranded for days, costing your company money every hour

Automated ID has solved that problem. We can save your company thousands of dollars by not only reducing downtime, but eliminate it.

- Immediate availability of all certification documents.
- Increase productivity.
- Save on rigging rental.
- Save on men hours.
